Office Action Summary

Art Unit: 1617

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-4, 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Royce in view of Folkers et al.

Royce et al teach directly compressible dosage form using polyethylene oxide as a binder (abstract). Drugs without limitation are disclosed (column 4 lines 44-45).

Folkers et al disclose that fluvastatin is well-known in the art as an HMG-COA reductase inhibitor.

It would have been obvious to one of ordinary skill to deliver fluv[✓]astatin in the vehicle of Royce to achieve the beneficial effect of an HMG.coA reductase inhibitor in view of Folkers et al.

Applicants argue that Royce doesn't teach HMG -COA reductase inhibitors. However, if Royce did so teach, applicants would be ^{fc} taking a rejection under 35 USC 102 b. Applicants argue obvious to try. However, ^{mo} ~~on~~ motivation to combine is provided.

Claims 1-4, 15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1 the location of the drug is unclear. Does the matrix contain the active?

Applicants argue that the claim language includes a partially enveloped active. However, applicants do not cite language in the specification showing that applicants contemplated such a limitation.

One of ordinary skill cannot clearly determine the metes and bounds of the claimed vehicle.

No claims allowed.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
